

EXECUTIVE FINANCE PROGRAMME

Cost Optimization and Operational Financial Performance

PROGRAMME FORMAT

Course duration: Not stated

Course Fee: Not stated

INTRODUCTION

Course overview

Cost Optimization and Operational Financial Performance is designed to equip business leaders and professionals with practical strategies for controlling costs, improving operational efficiency, and strengthening financial performance. The course focuses on identifying cost-saving opportunities, improving resource utilisation, managing operational expenses, and aligning financial performance with organisational objectives.

THE FINANCE LEARNING JOURNEY

COURSE OBJECTIVES

Learning objectives

By the end of the programme, participants will be able to:

01

BUILD THE FOUNDATION

- Understand the principles of cost optimization and operational financial management.
- Identify cost drivers, inefficiencies, and areas of unnecessary expenditure.
- Develop effective strategies for cost reduction without compromising quality.

02

APPLY THE DISCIPLINE

- Improve resource allocation and operational efficiency.
- Analyse operational costs and financial performance indicators.
- Strengthen budgeting, cost control, and financial planning practices.

03

SUPPORT BETTER DECISIONS

- Apply performance measurement techniques to improve profitability.
- Support sustainable business growth through effective cost management.

TRAINING METHODOLOGY

Training approach

The training combines facilitator-led presentations, practical exercises, real-world business case studies, group discussions, cost analysis activities, financial performance scenarios, and interactive problem-solving sessions.

● Facilitator-led presentations

● Practical exercises

● Real-world business case studies

● Group discussions
