

EXECUTIVE FINANCE PROGRAMME

Financial Analysis and Executive Decision-Making

PROGRAMME FORMAT

Course duration: Not stated

Course Fee: Not stated

INTRODUCTION

Course overview

Financial Analysis and Executive Decision-Making is designed to strengthen participants' ability to interpret financial information and use it effectively for strategic business decisions. The course focuses on financial statement analysis, performance measurement, financial forecasting, risk assessment, and the application of financial insights to improve organisational performance and long-term value.

THE FINANCE LEARNING JOURNEY

COURSE OBJECTIVES

Learning objectives

By the end of the programme, participants will be able to:

01

BUILD THE FOUNDATION

- Understand key concepts and principles of financial analysis.
- Analyse financial statements and assess organisational performance.
- Interpret financial ratios and key performance indicators.

02

APPLY THE DISCIPLINE

- Evaluate profitability, liquidity, efficiency, and financial stability.
- Apply financial data to strategic and operational decision-making.
- Develop effective financial forecasts and business scenarios.

03

SUPPORT BETTER DECISIONS

- Identify financial risks and opportunities for improved performance.
- Make evidence-based executive decisions that support sustainable growth.

TRAINING METHODOLOGY

Training approach

The training uses a practical and interactive approach combining expert-led presentations, financial analysis exercises, real-world case studies, group discussions, practical scenarios, and executive decision-making simulations.

● Expert-led presentations

● Financial analysis exercises

● Real-world case studies

● Group discussions

● Practical scenarios

● Executive decision-making simulations

Participants will apply financial concepts to realistic business situations to develop practical analytical and strategic capabilities.
