

EXECUTIVE HSE PROGRAMME

Integrated Health, Safety and Environmental Management Systems

PROGRAMME FORMAT

Course duration: Not stated

Course Fee: Not stated

INTRODUCTION

Course overview

Integrated Health, Safety and Environmental Management Systems equips professionals and organisational leaders with the knowledge and practical skills required to develop, implement, and continuously improve integrated management systems that protect employees, minimise environmental impact, and strengthen organisational compliance and performance. The course focuses on integrating health, safety, environmental, risk, and operational processes into a unified management framework.

THE HSE LEARNING JOURNEY

COURSE OBJECTIVES

Learning objectives

By the end of the programme, participants will be able to:

01

BUILD THE FOUNDATION

- Understand the principles of integrated health, safety, and environmental management systems.
- Identify workplace hazards, environmental aspects, and associated risks.
- Develop effective HSE policies, procedures, and management frameworks.

02

APPLY THE DISCIPLINE

- Implement risk assessment and control measures.
- Strengthen regulatory compliance and organisational accountability.
- Integrate HSE requirements into operational and business processes.

03

SUPPORT BETTER DECISIONS

- Monitor HSE performance and drive continuous improvement.
- Develop effective emergency preparedness and response strategies.

TRAINING METHODOLOGY

Training approach

The training combines facilitator-led presentations, practical exercises, workplace risk scenarios, case studies, group discussions, hazard identification activities, environmental assessment exercises, and management-system simulations.

● Facilitator-led presentations

● Practical exercises

● Workplace risk scenarios

● Case studies

● Group discussions

● Hazard identification activities

● Environmental assessment exercises

● Management-system simulations

Participants will apply the concepts to realistic organisational and workplace situations.

TRAINING BENEFITS

Training benefits

BENEFITS 01

- Develop and manage integrated HSE management systems.
- Improve workplace health, safety, and environmental performance.
- Identify and control occupational and environmental risks.
- Strengthen compliance with applicable HSE requirements.

BENEFITS 02

- Reduce workplace incidents, environmental impacts, and operational disruptions.
- Improve emergency preparedness and organisational resilience.
- Establish effective HSE monitoring, reporting, and corrective-action processes.
- Promote a strong culture of safety, environmental responsibility, and continuous improvement.

PARTICIPANT PROFILE

Who should attend?

Course code: RBC-HSE-IMS-001

- Health, Safety and Environment (HSE) Managers and Officers
- Environmental Management Professionals
- Occupational Health and Safety Professionals
- Operations and Facility Managers
- Risk and Compliance Professionals
- Quality Management Professionals

- Project and Construction Managers
- Engineering and Technical Professionals
- Business Owners and Senior Managers
- Supervisors and Team Leaders
- Professionals responsible for organisational HSE performance

Prerequisite: Not stated.

COURSE OUTLINE

The HSE learning roadmap

1

COURSE MODULE

Fundamentals of Integrated HSE Management Systems

2

COURSE MODULE

HSE Policy, Leadership, Governance and Organisational Responsibilities

3

COURSE MODULE

Hazard Identification, Risk Assessment and Risk Control

4

COURSE MODULE

Occupational Health and Workplace Safety Management

COURSE OUTLINE

The HSE learning roadmap

5

COURSE MODULE

**Environmental Aspects, Impacts
and Environmental Risk
Management**

6

COURSE MODULE

**Legal, Regulatory and HSE
Compliance Management**

7

COURSE MODULE

**Operational Controls and Safe
Work Practices**

8

COURSE MODULE

**Emergency Preparedness,
Incident Response and Crisis
Management**

COURSE OUTLINE

The HSE learning roadmap

9

COURSE MODULE

HSE Performance Monitoring, Measurement and Reporting

10

COURSE MODULE

Incident Investigation, Corrective Action and Preventive Measures

11

COURSE MODULE

HSE Auditing, Management Review and Continuous Improvement

12

COURSE MODULE

Building an Integrated HSE Culture and Sustainable Management Framework
