

EXECUTIVE PROJECT PROGRAMME

# Project Cost Estimation, Budgeting and Financial Control

## PROGRAMME FORMAT

**Course duration: Not stated**

Course Fee: Not stated

## INTRODUCTION

## Course overview

Project Cost Estimation, Budgeting and Financial Control equips project professionals with the practical knowledge and tools required to accurately estimate project costs, develop realistic budgets, monitor expenditure, and maintain effective financial controls throughout the project lifecycle. The course emphasises cost planning, resource costing, budget management, financial reporting, variance analysis, and cost control to support successful project delivery.

## THE PROJECT DELIVERY JOURNEY

## COURSE OBJECTIVES

# Learning objectives

By the end of the programme, participants will be able to:

01

## BUILD THE FOUNDATION

- Understand the principles and techniques of project cost estimation.
- Develop accurate and realistic project budgets.
- Identify and quantify project cost drivers and financial risks.

02

## APPLY THE DISCIPLINE

- Establish effective project cost control systems.
- Monitor project expenditure against approved budgets.
- Analyse cost variances and implement corrective actions.

03

## SUPPORT BETTER DECISIONS

- Prepare effective project financial reports and forecasts.
- Improve project profitability, accountability, and financial performance.

## TRAINING METHODOLOGY

## Training approach

The training combines facilitator-led presentations, practical cost-estimation exercises, budgeting workshops, project case studies, financial analysis activities, group discussions, and scenario-based exercises.

● Facilitator-led presentations

● Practical cost-estimation exercises

● Budgeting workshops

● Project case studies

● Financial analysis activities

● Group discussions

● Scenario-based exercises

Participants will work with practical project examples to develop and apply cost estimation, budgeting, monitoring, and control techniques.

## TRAINING BENEFITS

# Training benefits

**BENEFITS 01**

- Produce more accurate project cost estimates and budgets.
- Improve financial planning and resource allocation.
- Monitor project expenditure effectively.
- Identify cost overruns and financial risks at an early stage.

**BENEFITS 02**

- Apply variance analysis to improve project performance.
- Strengthen project financial reporting and accountability.
- Improve cost efficiency and financial control.
- Support projects in achieving their cost, scope, time, and quality objectives.

## PARTICIPANT PROFILE

# Who should attend?

Course code: RBC-PCEB-FC-004

- Project Managers and Project Coordinators
- Project Finance Managers and Cost Controllers
- Quantity Surveyors and Estimators
- Accountants and Financial Analysts
- Procurement and Contract Management Professionals

- Project Management Office (PMO) Professionals
- Operations and Programme Managers
- Engineers and Construction Professionals
- Business Owners and Consultants
- Professionals involved in project budgeting and financial control

Prerequisite: Not stated.

## COURSE OUTLINE

# The project delivery roadmap

1

COURSE MODULE

## Fundamentals of Project Cost Management

2

COURSE MODULE

## Project Cost Estimation Principles and Techniques

3

COURSE MODULE

## Work Breakdown Structure and Cost Allocation

4

COURSE MODULE

## Resource Planning and Cost Determination

5

COURSE MODULE

## Project Budget Development and Cost Baselines

## COURSE OUTLINE

## The project delivery roadmap

6

COURSE MODULE

### Cash Flow Planning and Project Funding

7

COURSE MODULE

### Project Financial Controls and Expenditure Management

8

COURSE MODULE

### Cost Monitoring, Tracking and Performance Measurement

9

COURSE MODULE

### Cost Variance Analysis and Corrective Action

## COURSE OUTLINE

## The project delivery roadmap

10

COURSE MODULE

### Forecasting, Cost-to-Complete and Financial Reporting

11

COURSE MODULE

### Contingency Planning and Project Cost Risk Management

12

COURSE MODULE

### Earned Value Management and Project Cost Performance

13

COURSE MODULE

### Practical Project Budgeting and Cost Control Case Study

#### PROGRAMME AT A GLANCE

# Project Cost Estimation, Budgeting and Financial Control

#### COURSE DURATION

**Not stated**

#### COURSE FEE

**Not stated**

Course Duration: Not stated | Course Fee: Not stated
