

EXECUTIVE PROJECT PROGRAMME

Project Risk Management and Business Continuity

PROGRAMME FORMAT

Course duration: Not stated

Course Fee: Not stated

INTRODUCTION

Course overview

Project Risk Management and Business Continuity is designed to equip project professionals, business leaders, and managers with the practical skills required to identify, assess, mitigate, and monitor risks that may affect project delivery and organisational operations. The course integrates project risk management with business continuity principles to help organisations prepare for disruptions, minimise losses, maintain critical operations, and recover effectively.

THE PROJECT DELIVERY JOURNEY

COURSE OBJECTIVES

Learning objectives

By the end of the programme, participants will be able to:

01

BUILD THE FOUNDATION

- Identify and assess risks throughout the project lifecycle.
- Develop effective project risk management frameworks and response strategies.
- Analyse threats that could disrupt business and project operations.

02

APPLY THE DISCIPLINE

- Develop practical business continuity and resilience strategies.
- Establish appropriate contingency and recovery plans.
- Strengthen crisis preparedness, response, and decision-making.

03

SUPPORT BETTER DECISIONS

- Integrate risk management into strategic and operational planning.
- Improve organisational resilience and continuity of critical services.

TRAINING METHODOLOGY

Training approach

The training uses a practical and interactive approach combining expert-led presentations, case studies, risk assessment exercises, scenario analysis, group discussions, business continuity planning activities, and crisis simulation exercises.

● Expert-led presentations

● Case studies

● Risk assessment exercises

● Scenario analysis

● Group discussions

● Business continuity planning activities

● Crisis simulation exercises

Participants will apply the concepts to realistic project and organisational disruption scenarios.

TRAINING BENEFITS

Training benefits

BENEFITS 01

- Identify and manage project and operational risks proactively.
- Reduce the impact of unexpected disruptions and project failures.
- Develop effective contingency and business continuity plans.
- Improve crisis response and recovery capabilities.

BENEFITS 02

- Strengthen organisational resilience and operational preparedness.
- Protect critical resources, processes, and business operations.
- Improve risk-based decision-making and stakeholder confidence.
- Support sustainable project delivery and business performance.

PARTICIPANT PROFILE
