

EXECUTIVE HSE PROGRAMME

Safety Leadership and Operational Excellence

PROGRAMME FORMAT

Course duration: Not stated

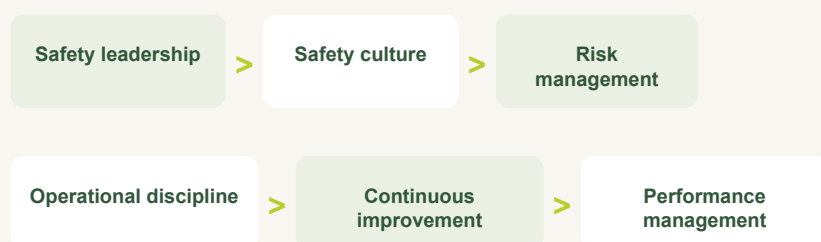

Course Fee: Not stated

INTRODUCTION

Course overview

Safety Leadership and Operational Excellence is designed to equip managers, supervisors, and operational professionals with the leadership skills and practical knowledge required to build strong safety cultures while improving organisational performance. The course integrates safety leadership, risk management, operational discipline, continuous improvement, and performance management to promote safer, more efficient, and sustainable operations.

THE HSE LEARNING JOURNEY

COURSE OBJECTIVES

Learning objectives

By the end of the programme, participants will be able to:

01

BUILD THE FOUNDATION

- Understand the principles of effective safety leadership.
- Develop and promote a positive organisational safety culture.
- Identify operational hazards, risks, and areas for improvement.

02

APPLY THE DISCIPLINE

- Apply effective safety risk assessment and control strategies.
- Strengthen compliance with workplace safety standards and procedures.
- Improve operational efficiency through structured management systems.

03

SUPPORT BETTER DECISIONS

- Use performance indicators to monitor safety and operational excellence.
- Lead continuous improvement initiatives and reduce operational losses.

TRAINING METHODOLOGY

Training approach

The training combines expert-led presentations, practical safety exercises, operational case studies, group discussions, risk assessment activities, leadership scenarios, and continuous improvement simulations.

● Expert-led presentations

● Practical safety exercises

● Operational case studies

● Group discussions

● Risk assessment activities

● Leadership scenarios

● Continuous improvement simulations

Participants will apply safety and operational excellence principles to realistic workplace situations.

TRAINING BENEFITS

Training benefits

BENEFITS 01

- Build a stronger safety-focused organisational culture.
